

THE CANDY KID

By FRED FARREL

Many citizens are disgruntled with Robert Welch.

Mr. T. R. Eddy was a member of the John Birch Society who resigned his membership. His letter of resignation has been published in *The National Chronicle*. In his resignation Mr. Eddy said: "Mr. Welch and others of the Society have continually and pointedly welcomed into membership certain people who proclaim themselves Jews. In view of the fact that the overwhelming majority of Jews are openly in sympathy with all forms of left-wing agitation including Communism, I think any organization that admits them as such ("Jews") and then fails to tell the people about the Jewish finance behind the Bolsheviks and the same hand behind our own usurious money system known as the Federal Reserve System, is highly suspect to say the least."

The general beef against Welch is that he has allied himself to the Jews. Certainly he makes no bones about the matter. Many firms which advertise in *American Opinion* are Jewish firms. A substantial part of Welch's financing comes from Jewish sources. An article in *American Opinion* has praised the Jews as the "Great achievers of American life." All who are interested, on either side of the fence, know that Welch has made his choice. He has joined up with the Jews.

"No one who loves his people wants integration since this means his race will disappear through interbreeding."

— Bishop L. Fain Kyle, one of world's outstanding Negro patriots.

Welch has made his choice. Don't fret about it. Rather, face the fact that **YOU YOURSELF** also have to make the choice. Indeed, you **DO** make the choice every day, whether you realize it or not.

Look at yourself in a mirror. You belong to several different specifications. You belong to a race; you belong to a social class; you belong to an economic bracket; you belong to a church. You hope the package will hang together, that your various loyalties will not clash too much. Indeed, all manner of glib charlatans work night and day inventing rationalizations for you. You don't worry about it too much.

Let us say that you are a white Anglo-Saxon Protestant. You own the Silver Dollar restaurant or the Crosscorners Feed Mill. You are doing well. You have a big house. You own a "Jew Canoe" V-8. Naturally you hate labor unions, Russians, Negroes, Earl Warren, H. Rap Brown, and all of the other pests who befoul an otherwise pleasing prospect. You have light brown hair and blue eyes, and you believe in your own race. You read in *Look* magazine that within thirty years most Americans will be coffee-colored.

All right, mister! Let's lay it on the line. Up in Detroit, in a slum, there are thousands of hillbillies with light brown hair, blue eyes, and white skin. They are being driven to the wall. Their children are being herded into integrated, vice-ridden schools. They have to fight with Negroes for jobs, for possession of neighborhoods. The big bosses of Detroit want an interbred population. You say that you are in favor of light brown hair, blue eyes, and white skin. There are jolly good reasons why you should be. A racist nation is the only kind which stays on the world map. Other kinds of so-called nations go the way of Nineveh and Tyre. Light brown hair, blue eyes, and white skin put the U.S.A. on the world map; they are the color combination which will keep the U.S.A. on the world map if anything does. We are not making any attack on the Negro. We do not say that the Negro is a coward. I once saw a brave Simba warrior in Africa kill a lion with a spear. Killing a lion with a spear is not a business for panty-waist types. I have seen tribal wars. When Negro tribes set off on a war, they want no white men among them. They know that integrated armed forces are no good. Race is the key to success in occupying land on the surface of planet earth. Yes, mister, that hillbilly up in Detroit is

"If our buildings, our highways, our railroads should be wrecked, we could rebuild them. If our cities should be destroyed, out of the very ruins we could erect newer and greater ones. Even if our armed might should be crushed, we could rear sons who would redeem our power. But if the blood of our white race should become corrupted and mingled with the blood of Africa, then the present greatness of the United States of America would be destroyed and all hope for the future would be forever gone. The maintenance of American civilization would be as impossible for a negroid America as would be redemption and restoration of the white man's blood which had been mixed with that of the Negro."

— THEODORE G. BILBO.

important to you, if you want to have a country to live in. If you won't protect his light brown hair, blue eyes, and white skin, why should he care a jolly good damn about you? Now comes the rub. This hillbilly does not belong to your social class. He is a working man. He belongs to the UAW. Your bourgeois training has conditioned you to think of the working class as a special race of mad dogs, always allied to Red Russia and always suspect. This goes back to the origins of your class. Your bourgeois class emerged to power by defeating two other classes, namely the aristocracy and the working class. For generations your lapdog poets and hack writers have defamed these other two classes. The aristocrats were defamed as tyrants and sadists; the workers as subversives, revolutionists, utter vermin, barely tolerable on the face of the earth. Your own class is extolled as appointees of God, trustees of religion, patriotism, and enlightenment.

Confound it! Come down off of your bourgeois high horse; Grow up! You are like a football team which thinks that the other team has no right to play. How could there be a game if the other team did not play?

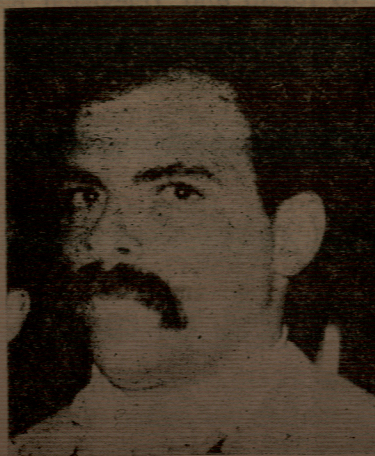

Let's see if we can get you down off of that bourgeois high horse for a few minutes. At the very beginning of the bourgeois age, there were those who said that no good would come of it. They predicted that it would be utter disaster to put the fate of civilization into the hands of shopkeepers, bourse-gamblers, and similar tin horns of the rising middle class. The Bourbons especially fought the rise of the bourgeois. It was obvious that no good would come of the gang of upstarts who were trying to take over. Looking at the fouled-up condition of the bourgeois world today, sometimes I think that the Bourbons were right.

The bourgeois complained, "The Bourbons never learn." This must be so. Some months ago, in Europe, I met an old friend, whose last name is Bourbon-Parma. We briefly discussed the sad state of the world. Mr. Bourbon-Parma said, "What would you expect, with the world in the hands of a pack of shopkeepers and bourse-gamblers."

What indeed?

You will do nothing to help that hillbilly up in Detroit. All he will ever get out of you is a kick in the slats. You are, like Robert

THE NEW BREED

JERRY RUBIN: Notorious revolutionary and leader of the "Yippie" movement, once ordered protesters to "kill a policeman." Publicly called for more New York bombings. More recently called on Yippies to "kill their parents."

Welch, loyal to your class, not to your race. Elephants will roost in trees before you lift a finger to help that hillbilly in Detroit. Don't bother to write *Common Sense* complaining that Robert Welch has "sold out," when you yourself do the same thing, year after year, until kingdom come. In short, you are a bourgeois. You are a nice chap, the salt of the earth. If I met you, I would not hurt your feelings for the world. Still, there are times when I wonder about you. I just plain wonder if you have the moxie to stay in business on the face of the planet earth. Frankly, if you have any such talents left, you are keeping them well hidden. I have listened to the ungodly gasbaggery which goes on at your Conservative meetings. I have witnessed painfully the asinine and useless activities which you call "Fighting Communism." I wonder if you are still capable of significant action.

Robert Welch has invented nothing new. The Jews are the ultimate in bourgeois nihilism. It is only natural that the Goy bourgeois wants to be allied to them. Welch has not betrayed any principles of his own. He really likes Jews. He is sincere. The real question is, "Why did you ever think that Welch would oppose the Jews?" Welch himself never promised you any such thing. He has not "betrayed" you. You betrayed yourself. You run after any fool quack who will teach you to hate the common people of your own race. And still you want to call yourself a "racist."

"God made the white man white and He wants him to stay white. God made the black man black and He wants him to stay black. The devil made the mulatto." — David Livingston, the great missionary to Africa.

You think that your "enemy" is always a working man. Your enemies in the world sound more like Cardinal Richelieu and Prince Talleyrand every day. They have taken the Middle East away from you, taken the Indian Ocean away from you, taken Southeast Asia away from you. They have undermined your European alliances. They have outclassed you ten to one. Still, you hate the working class so much that you want to put all of your enemies into one bag; when you talk of "Fighting Communism" you always mean fighting the working class.

Sometimes I think that the Bourbons are right about you. All of us must choose among our various loyalties. The word "bourgeois" is one I am thinking seriously of dropping from my personal nomenclature. Who wants to belong to a dying class? If you don't do better than you are doing now, that is exactly what you are going to be. The race man is the man of the future. Your class has sold itself like a street corner whore to the Jews. After you have done that, I am no longer interested in hearing about what a "great Conservative" you are. The true conservative is loyal to his race, and that means every social class of that race. Your bourgeois hostility to other social classes of your own race is incompatible with true racial loyalty. The Third Reich was based upon across-the-board loyalty to the Aryan race, including all social classes thereof. Your bourgeois rackets lead to the division of the race along class lines. That is why I think sometimes that Germany probably carried the banner of the West for the last time. You are not carrying it aloft today; you are dragging it in the mud.

"The great difficulty we have in facing the race problem is that a whole generation of educated Americans have grown up under Professor Boas' teachings . . . These are the people who are now in power in the United States and they don't know what it's all about . . . That leaves the race question to be solved only by the more uneducated people in the country. That means it's going to be solved in a pragmatic way which is always, of course, the most disagreeable way possible."
